- PUBLIC RELATION

PROJECTS

Hyperlocal IoT Weather Station 🌐, Standard weather apps give you data for a whole city, which can be kilometers away from your actual location. The Hyperlocal IoT Weather Station solves this "data gap" by providing precise, real-time environmental data for your specific garden, farm, or balcony.

Transparent Project Funding Platform 🌐, The Transparent Project Funding Platform is a decentralized application (DApp) that enables transparent and trustless funding for various projects. Built on the Ethereum blockchain, this platform allows project creators to list their projects and receive funds from contributors securely.

PROFESSIONAL EXPERIENCE

01/2026 – Present	ATRANG CULTURAL CLUB , Vice President	JAIPUR
04/2025 – Present	UEM JAIPUR TOASTMASTERS CLUB , Member	JAIPUR
